

COQ10

Antioxidant properties to fuel your energy levels.

30 servings per container

CoQ10, also known as Coenzyme Q10, is an oil-soluble vitamin-like compound found in every cell of the human body. It helps the body convert food into energy.

Coenzyme Q10 is produced naturally by our body in small quantities. It is a nutrient involved in the creation of ATP (adenosine triphosphate), which is an energy-carrying molecule found in the cells of every living thing. Organs with high energy requirements, such as the heart, have an increased need for high concentrations of CoQ10 to produce energy.

Synergy's CoQ10 (Ubiquinone) is an all-natural product that uses a patented lipid blend that enhances its bioavailability and absorption in the human body.

KEY FEATURES

- Ubiquinone CoQ10

RECOMMENDED USE

Take one capsule with a meal twice daily.
